

# Monmouth County Three Bridges

## Brielle & Manasquan

Green Avenue over Debbie's Creek (W-7)

Fisk Avenue Culvert (W-8)  
over Debbie's Creek and The Glimmer Glass

Brielle Road over The Glimmer Glass (W-9)

The County of Monmouth, the New Jersey Department of Transportation (NJDOT), and the North Jersey Transportation Planning Authority (NJTPA) are committed to developing transportation improvements that best balance transportation needs, the environment, community concerns, and cost.

To meet these objectives, a Public Information Center to inform local residents, officials and the business community about Monmouth County Three Bridges (W-7, W-8 & W-9) in Brielle and Manasquan will be held **Tuesday, May 24, 2016:**

**2 to 4 p.m.**

**Brielle Borough at the Curtis House**  
644 Union Lane • Brielle, NJ 08730  
*across from Public Works yard entrance  
between Howell Drive and Legg Place*

**6 to 8 p.m.**

**Manasquan Borough Hall**  
201 East Main Street  
Manasquan, NJ 08736

Attendees will have an opportunity to review exhibits of the existing bridge, culvert and road conditions, ask questions and provide feedback to Three Bridges project team members.

You are encouraged to actively participate by providing input on the project's purpose and needs at the meeting, by mail or email. Comments will be accepted through Thursday, June 23, 2016. Property owners with rental units are advised that tenants are welcome and encouraged to participate in this process. If you require specific accommodations, please notify the Project Facilitator, Denice daCunha.

On the second sheet, there is information about the Monmouth County Three Bridges project including details about the three structures, the project's purpose, needs, goals and objectives and project facilitator contact information.

# Monmouth County Three Bridges

Public Information Center – Tuesday May 24, 2016

Brielle 2-4 p.m. at Curtis House / Manasquan 6-8 p.m. at Borough Hall

## Background | Structures in need of improvement:

### **Bridge W-7:** Green Avenue over Debbie's Creek

- Constructed 1944, 120' long fixed (7 span) timber bridge

### **Structure W-8:** Fisk Avenue Culvert between Debbie's Creek and The Glimmer Glass:

- Constructed 1946, 80"x80" flat bottom reinforced concrete pipe structure with a 34.8' curb to curb roadway width
- Steel sheeting along Fisk Avenue and Debbie's Creek

### **Bridge W-9:** Brielle Road Bridge over The Glimmer Glass

- Original bridge constructed 1889, movable bascule span installed 1938 with a major reconstruction and reduction in length to approach structure in 1950
- NJ State & National Register of Historic Places in 2008
- Emergency interim repairs 2014

## Project Purpose:

The purpose of the project is to provide safe and efficient crossing for all modes of travel within the project limits by addressing the geometric, structural, operational and maintenance deficiencies of Bridge W-7, Structure W-8, and Bridge W-9.

## Project Needs:

- Bridge Needs (including emergency vehicles, clearances, bridge width)
- Roadway Needs (lane/shoulder widths)
- System Linkage (emergency response, coastal evacuation route, marine access)
- Pedestrian and Bicycle Compatibility / ADA

## Project Goals and Objectives:

- Provide ADA compliant pedestrian facilities and crossings with connectivity
- Reduce the safety risks for all users
- Reduce the frequency of major bridge maintenance activities
- Maintain traffic with minimum disruption during construction
- Avoid or minimize social, economic and environmental impacts
- Avoid, minimize and, if necessary, mitigate adverse effects on the National and NJ Register of Historic Places listed Bridge W-9
- Incorporate Context Sensitive Solutions approach into the design
- Additional input from stakeholders and public
